**INFORMATIVE**

**SES-MFS-20041206-01790**      E040267      Newcom International, Inc.

On December 6, 2005, Satellite Division, Policy Branch, granted NewCom International, Inc. and MCI, Inc. a 60-day extension of time, to and including January 17, 2005, in which to file their orbital debris mitigation plans. To file their plans, both applicants must obtain and submit information on the orbital debris mitigation plans for the Express-3A spacecraft, licensed under the administration of the Russian Federation and operated by the Russian Satellite Communications Company. We find that, in this instance, the public interest warrants grant of a brief extension of the amendment deadline and an extension of time to file the orbital debris mitigation plans for the Express-3A spacecraft.
